

Wallbox CPB1

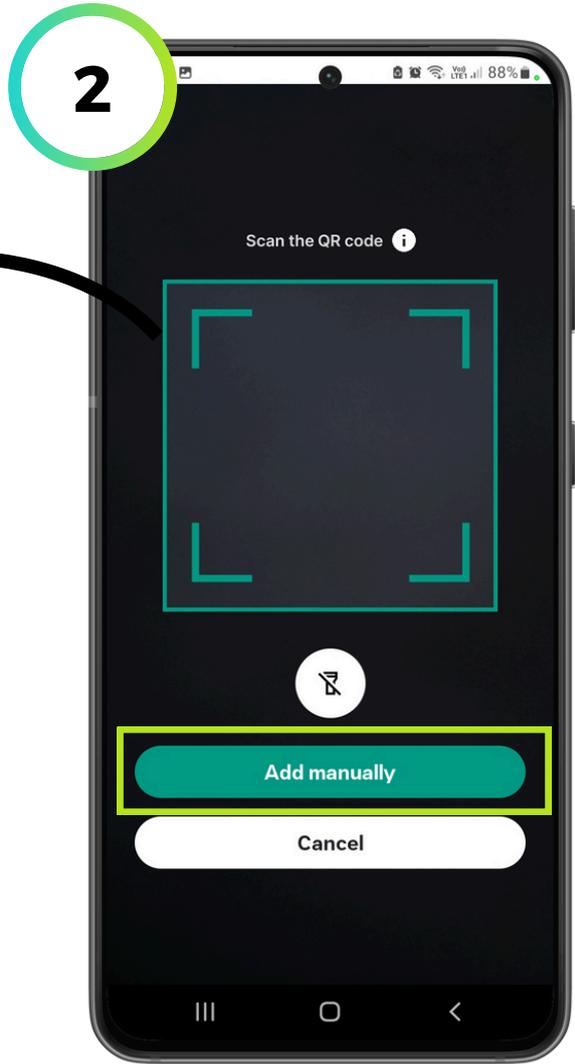

Cleenergy EV Platform Onboarding Guide

- Download the MyWallbox app for your device.

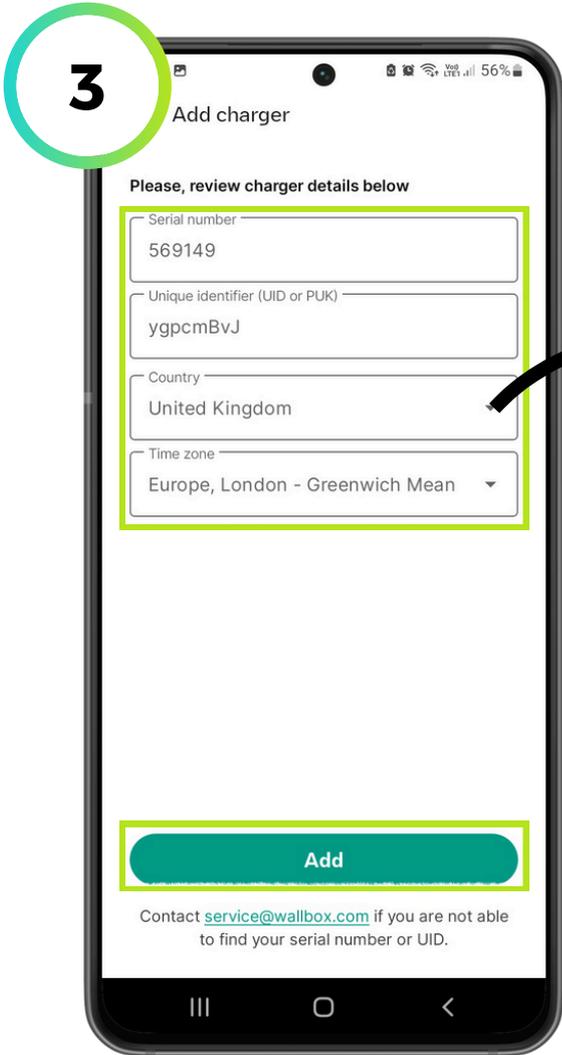

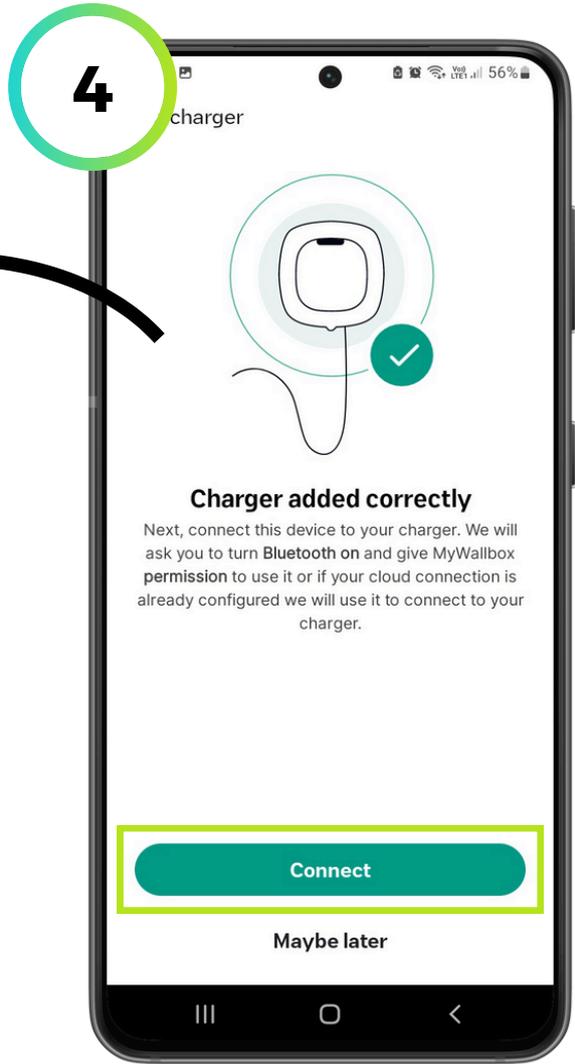

1. Once installed, open the MyWallbox app and select Add Charger.

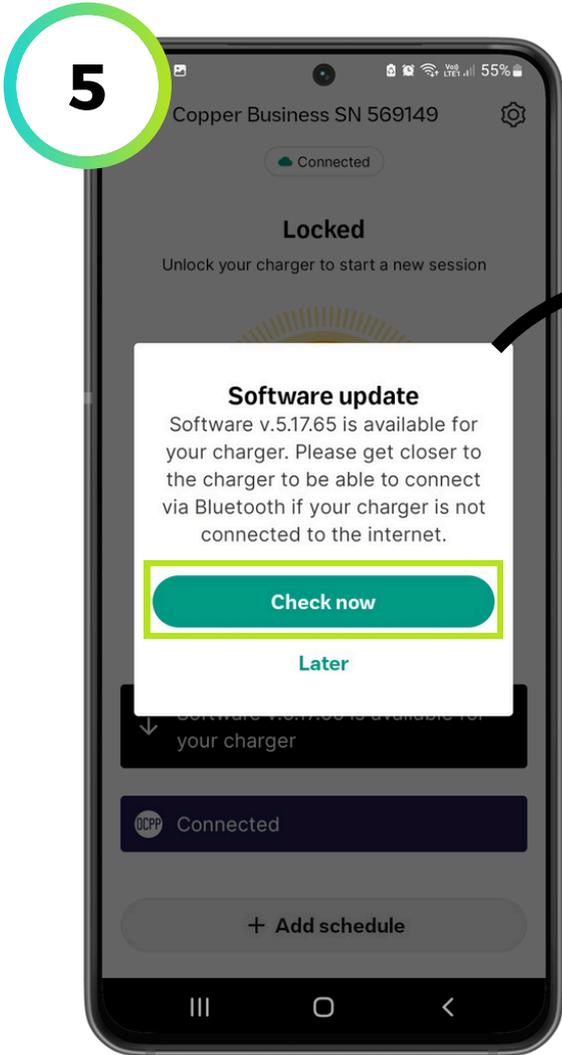

2. Either scan the QR code on the side of the charge point or select Add manually to enter the charge point details.

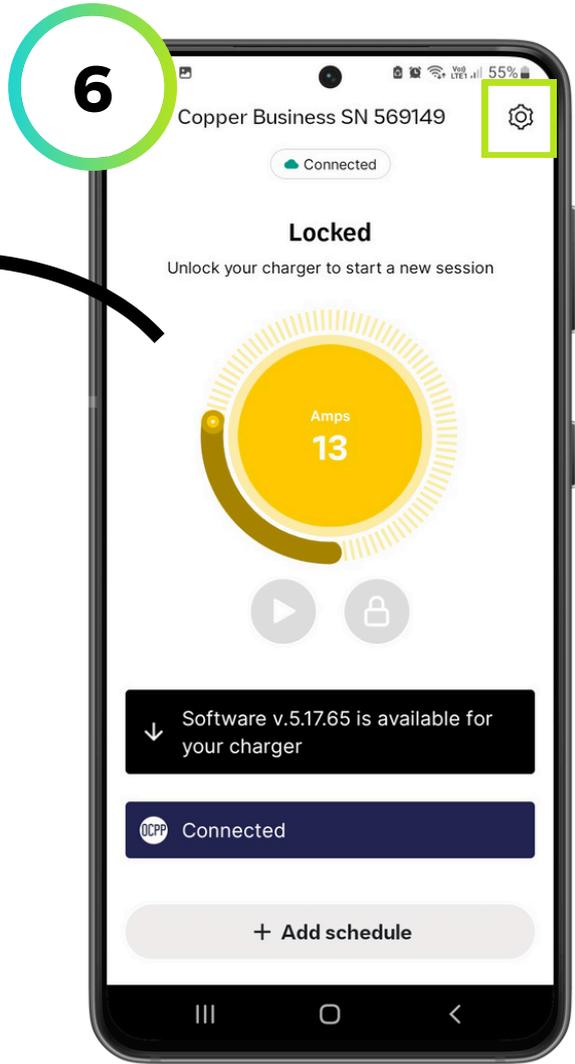

3. Confirm that the charge point details are correct then select Add.

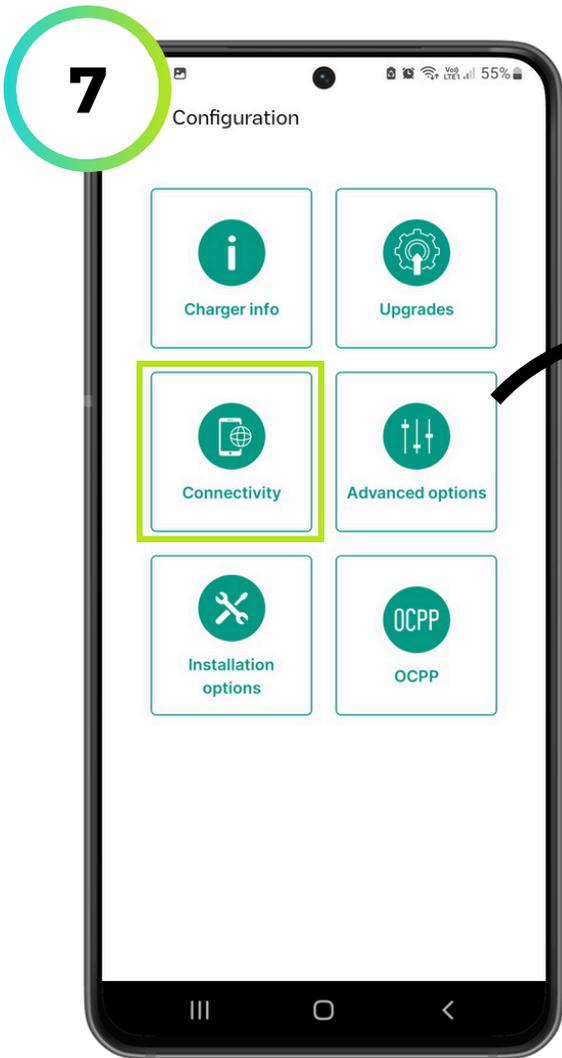

4. Select Connect to pair your device with the charge point via Bluetooth.

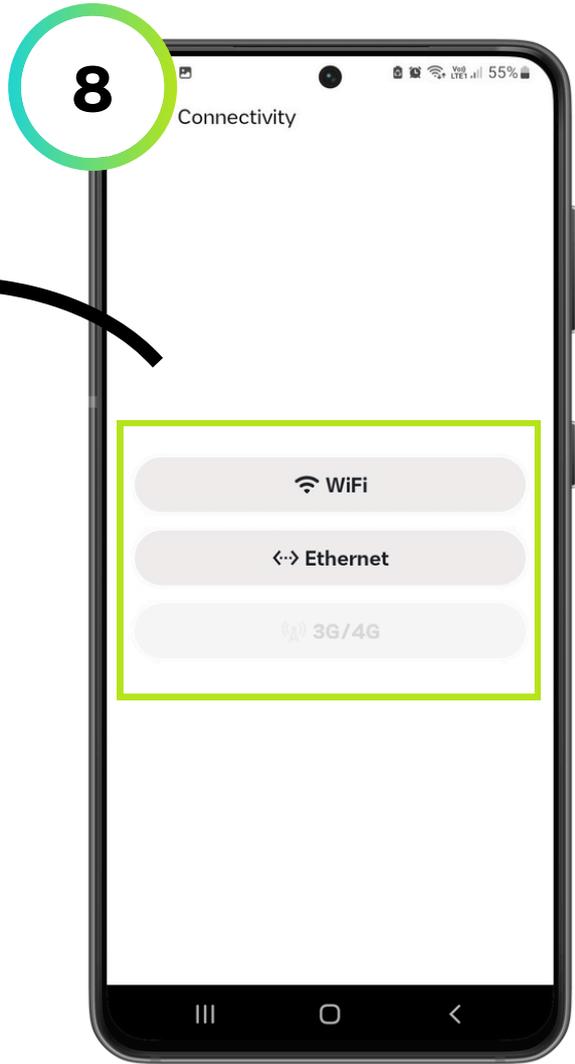

5. Once connected, a Software update message may appear. Select **Check now** and follow the on-screen instructions to complete this.

6. Select the  icon in the top corner of the screen to access the Configuration menu.

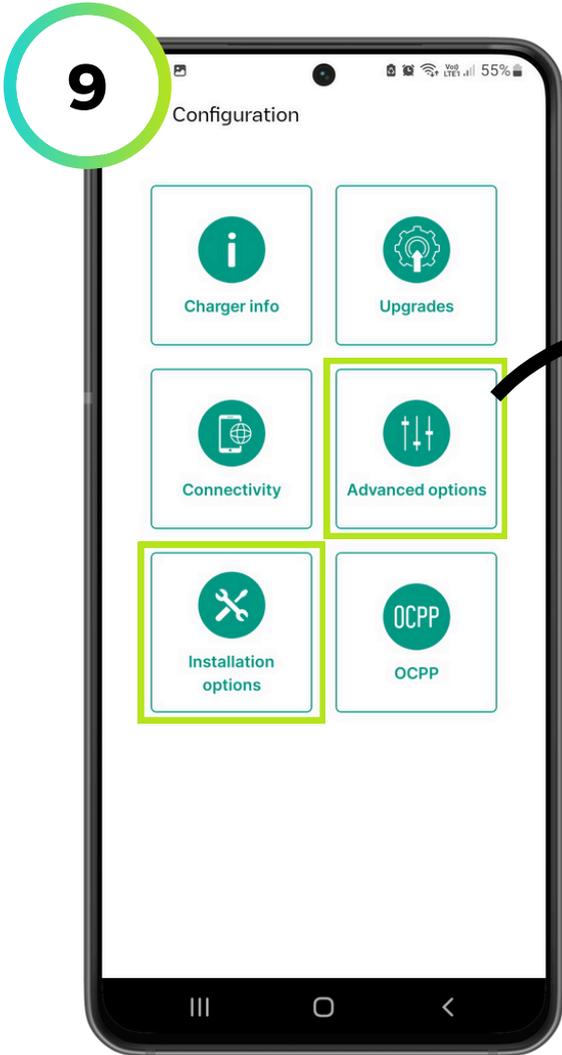

7. Select Connectivity to proceed.

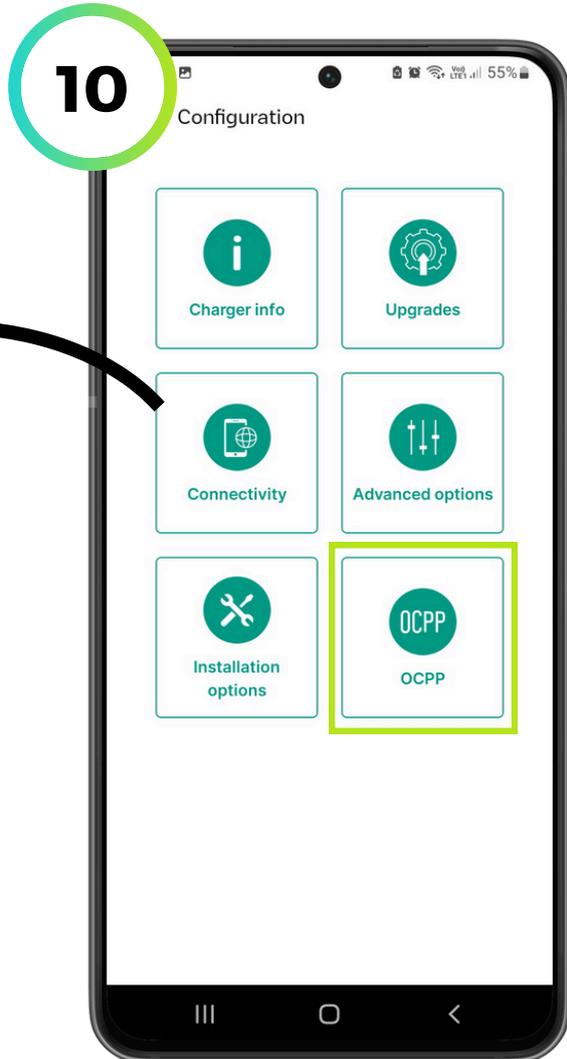

8. Select the required network connection type and connect using the appropriate credentials.

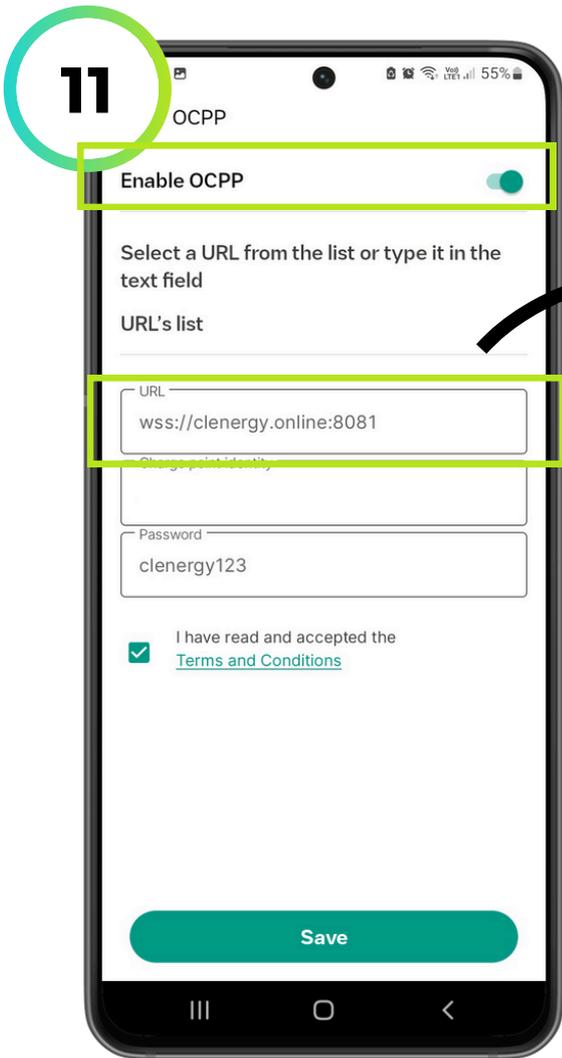

Please note: If connecting via 3G/4G compatible models, connect using the following credentials:
APN: eapn1.net
Username/Password: clenergy

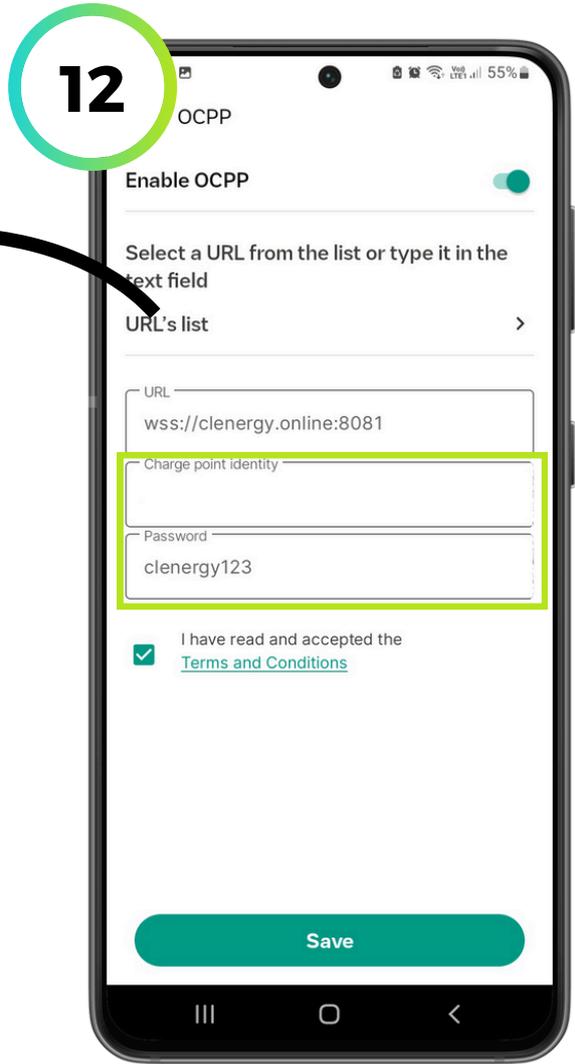

9. Return to the Configuration menu and use the **Advanced options** and **Installation options** to configure any other settings as needed.

10. Select **OCPP** to proceed.

11. Toggle Enable OCPP on and enter wss://clenergy.online:8081 into the URL field.

12. Enter the charge point serial number into the Charge point identity field and enter clenergy123 into the Password field.
